# 設計工作坊 Design Workshop

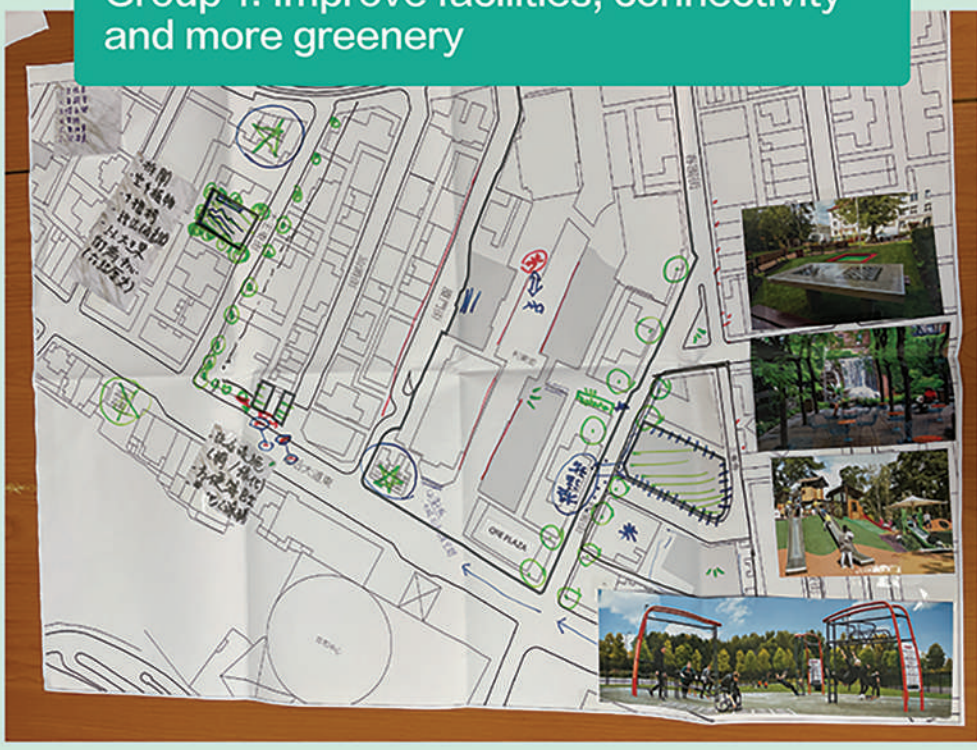

參加者運用他們在工作坊中學到的公共空間設計案例、實地考察的數據和作為街坊的地區知識，準備了改善灣仔規劃設計的概念規劃圖，在最後一課時，他們也向大家介紹了他們的概念規劃圖，其質素和深度之高相當令人讚嘆！

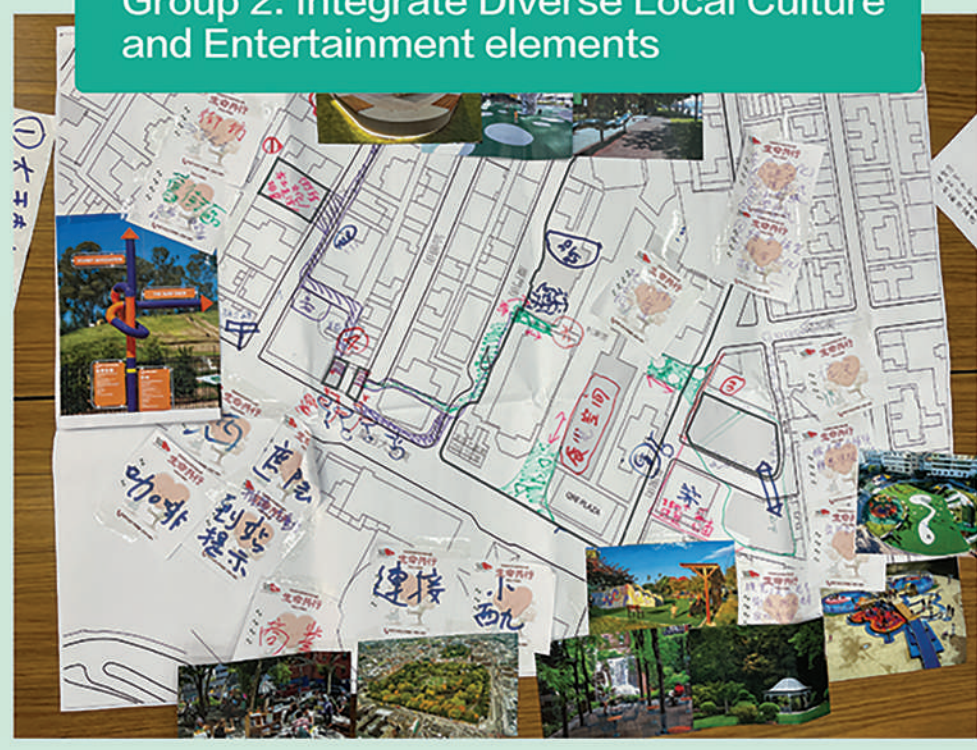

With the knowledge learnt on good practices of open space planning, the site visit data and the own local knowledge as Kai Fongs, participants then started to work on a conceptual layout plan to improve the planning and design of the neighbourhood of Wan Chai. The in-depth dialogue has been rewarding with impressive simplified Master Plans drawn by our "Kai Fong" in the final session.

### 小組一：改善設施及連接性、增加綠化 Group 1: Improve facilities, connectivity and more greenery

### 小組二：結合地區多元文化、娛樂元素 Group 2: Integrate Diverse Local Culture and Entertainment elements
